

We offer supportive dental care for everyone.

We specialize in serving those with no dental insurance or government-assisted dental insurance plans:

- ODSP (Ontario Disability)
- Ontario Works
- Community Outreach (Northumberland County)
- Healthy Smiles (Children)
- Seniors Dental Care Program

Donations

The Community Health Centres Dental Clinic is Northumberland County's only not-for-profit dental clinic. The clinic is able to operate only through the generosity of individual donors and with successful procurement of grants.

To make a donation in person please contact:
Doug Dixon,
Director of Corporate Services
905-885-2626 ext. 202

DENTAL SERVICES

Building a healthier community together

COMMUNITY HEALTH CENTRES
OF NORTHUMBERLAND

Did you go to the emergency room for help?

An ER may assist you with pain and antibiotics, but the problem with the tooth is still there.

At the Community Health Centres of Northumberland Dental Clinic, we will help you design a plan and work with you to make sure your teeth and gums are the healthiest they can be.

Services Offered

Our services include:

- Teeth cleaning and checkups
- Tooth removal
- Fillings
- Root canals and treatment
- Crowns and bridges
- Digital xrays
- Implant supported dentures
- Emergency appointments available

The dental team provided "AI service." It was quick, I was in and out and they were able to work with me within my financial means.

Blair, client

Our Team

Our dental team includes dentists, hygienists and assistants that provide dental care 5 days a week.

Your comfort is our #1 priority

I was comfortable, very happy with the service. Overall I have had a very positive experience every time that I have come to see this team.

George, client

Haven't been to the dentist in years?

It's OK—we are here to help! We offer friendly, safe, and supportive care. We also offer nitrous oxide ("laughing gas") to help make the experience easier.

Issues with your teeth can cause:

- Missed work
- Weight loss (pain when chewing)
- Lack of self-confidence

They truly look out for your best interests, I highly recommend them to others in the community.

Mary, client
